

OFFICE OF THE GOVERNOR

OCT 11 2017

To the Members of the California State Senate:

I am signing SB 751. This bill makes reasonable and appropriate changes to existing law to provide schools with adequate flexibility necessary to maintain fiscal solvency while simultaneously prioritizing the education of students they are currently serving.

However, further clarification in the form of a technical amendment is necessary regarding the application of the 10 percent cap to ensure that this bill is implemented as intended should the reserve cap ever be triggered.

I will direct the Department of Finance to work with the author's staff to ensure that this technical amendment is incorporated in cleanup legislation next year.

Sincerely,

Edmund G. Brown Jr.
