

Update on California's Pandemic Roadmap

REMINDER

California's decisions to modify the Stay-at-Home order are based on science, data and public health.

What does Stage 2 mean?

This is NOT a “return to normal.”

COVID-19 is still spreading.

California is gradually reopening only where we can reduce risk.

Starting to Open Friday, May 8th

RETAILERS should increase pick up and delivery and encourage physical distancing during pickup and install hands-free devices

MANUFACTURERS should close breakrooms, create outdoor break areas with physically distanced seating

WAREHOUSES should carry sanitation materials during deliveries and use personal protective equipment for each stop

Gradual Move to Stage 2

As we continue into Stage 2, we will gradually re-open more industries

Gradual Move to Stage 2

Opening later

- Offices (can telework)
- Seated dining at restaurants
- Shopping malls
- Outdoor museums

Industry Guidance

ALL industries must do the following

- ✓ Perform a detailed **risk assessment**
- ✓ **Train employees**
 - ✓ on limiting spread
 - ✓ how to screen for symptoms
 - ✓ to stay home if sick
- ✓ **Implement**
 - ✓ a site-specific protection plan
 - ✓ cleaning and disinfecting protocols
 - ✓ physical distancing guidelines

Regional Variance

Counties can move further into Stage 2 when they attest they meet California Public Health criteria.

Regional Variance Criteria

Epidemiologic stability

- ✓ No more than 1 case per 10,000 people in the last 14 days
- ✓ No COVID-19 death in the past 14 days

Protection of Stage 1 essential workers

- ✓ Ability to support employees when sick or exposed
- ✓ Availability of disinfectant supplies and protective gear

Testing capacity

- ✓ Minimum daily testing of 1.5 per 1,000 residents

Containment capacity

- ✓ At least 15 contact tracers per 100,000 residents
- ✓ Ability to temporarily house at least 15% of county residents experiencing homelessness

Regional Variance Criteria

Hospital capacity

- ✓ County or regional capacity to accommodate a minimum surge of 35%
- ✓ Hospital facilities must have a robust plan to protect hospital workforce

Vulnerable populations

- ✓ Skilled nursing facilities must have more than 14 day supply of PPE on hand for staff with ongoing procurement from non-state supply chains

Triggers for adjusting modifications

- ✓ Metrics that serve as triggers for either slowing the pace through stage 2 or tightening modifications
