

# Update on California's Pandemic Roadmap

# REMINDER

California's decisions to modify the Stay-at-Home order are based on science, data and public health.

# What does Stage 2 mean?

This is NOT a "return to normal."

COVID-19 is still spreading.

California is gradually reopening only where we can reduce risk.

# Starting to Open Friday, May 8th

retailers should increase pick up and delivery and encourage physical distancing during pickup and install hands-free devices

should close breakrooms, create outdoor break areas with physically distanced seating

WAREHOUSES should carry sanitation materials during deliveries and use personal protective equipment for each stop

### Gradual Move to Stage 2

As we continue into Stage 2, we will gradually re-open more industries

# Gradual Move to Stage 2

### Opening later

- Offices (can telework)
- Seated dining at restaurants
- Shopping malls
- Outdoor museums

# Industry Guidance

### ALL industries must do the following

- Perform a detailed risk assessment
- ✓ Train employees
  - ✓ on limiting spread
  - ✓ how to screen for symptoms
  - ✓ to stay home if sick

- ✓ Implement
  - ✓ a site-specific protection plan
  - cleaning and disinfecting protocols
  - ✓ physical distancing guidelines

### Regional Variance

Counties can move further into Stage 2 when they attest they meet California Public Health criteria.

### Regional Variance Criteria

#### **Epidemiologic stability**

- ✓ No more than 1 case per 10,000 people in the last 14 days
- ✓ No COVID-19 death in the past 14 days

## Protection of Stage 1 essential workers

- ✓ Ability to support employees when sick or exposed
- ✓ Availability of disinfectant supplies and protective gear

#### Testing capacity

✓ Minimum daily testing of 1.5 per 1,000 residents

#### Containment capacity

- ✓ At least 15 contact tracers per 100,000 residents
- ✓ Ability to temporarily house at least 15% of county residents experiencing homelessness

### Regional Variance Criteria

### Hospital capacity

- ✓ County or regional capacity to accommodate a minimum surge of 35%.
- ✓ Hospital facilities must have a robust plan to protect hospital workforce

#### Vulnerable populations

✓ Skilled nursing facilities must have more than 14 day supply of PPE on hand for staff with ongoing procurement from non-state supply chains

### Triggers for adjusting modifications

✓ Metrics that serve as triggers for either slowing the pace through stage 2
or tightening modifications
