California's recovery is underway, with the state reopened after achieving the most vaccinations in the entire country, and now we're [leading the nation's economic recovery](#). But we still have a long way to go and can't be satisfied with just returning to the way things were. **Governor Newsom's \$100 billion California Comeback Plan is the comprehensive strategy needed to address the state's most persistent challenges and ensure California comes back from this pandemic stronger than before.**

The California Comeback Plan is reimagining our public schools with the highest level of state school funding in California history. With the **new \$20 billion investment, the total \$123.9 billion school and per-pupil state funding that will transform our K-12 public schools includes \$3 billion to convert thousands of school sites into full-service community schools and growing to \$2.7 billion for universal pre-k.** Under this plan, California public schools will be transformed with wraparound services — from mental health, to social and family services, to tutoring and after-school programs — the kind of complete campus every parent would want for their child.

In addition to these targeted intervention strategies, the California Comeback Plan has one overarching goal – hit fast forward on our state's recovery by directly confronting California's most pressing challenges:

- **Providing Immediate Relief for Those Hardest Hit by COVID-19**
- **Confronting the Homelessness & Housing Affordability Crisis**
- **Transforming Public Schools as Gateways for Opportunity**
- **Building Infrastructure for the Next Century**
- **Combating Wildfires & Tackling Climate Change**
