OFFICE OF THE GOVERNOR

OCT 05 2021

To the Members of the California State Assembly:

I am returning Assembly Bill 70 without my signature.

This bill would require the California Department of Public Health (CDPH) to establish a new state regulatory program to provide oversight over gene synthesis providers and manufacturers of gene synthesis operating equipment. The bill would also require gene synthesis businesses to demonstrate membership in a voluntary industry consortium or be verified by CDPH to use customer and sequence screening protocols that meet or exceed the protocols established by that consortium.

In order to fund the establishment of the program, the bill would authorize CDPH to begin charging fees from the entities to be regulated before the program is established and before businesses are required to be in compliance. This structure is not implementable and General Fund resources needed to support the establishment of a new regulatory program should be considered in the annual budget process. Furthermore, consideration should be given to whether a patchwork of state and federal regulations on biosecurity is the most effective way to approach an issue of international magnitude. For these reasons, I am returning this bill without my signature.

Sincerely,

Gavin Newsom
